DETAILED ACTION

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Germany on 21 February 2001. It is noted, however, that applicant has not filed a certified copy of the original German application as required by 35 U.S.C. 119(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "and a holographic recording of at least one of the measuring object and the reference object" in lines 10-11 of the claim. There is insufficient antecedent basis for this limitation in the claim. Technically speaking, there is no antecedent basis problem with "a holographic recording". As written, however, the single claim appears to try to encompass both embodiments of the invention as depicted in Figures 1 and 2 of the specification. This language makes the claim unclear as to what method is exactly being claimed, and therefore makes the claim confusing to one of ordinary skill in the art.

Allowable Subject Matter

Claim 1 may be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Art Unit: 2877

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Pat. No. 5,777,742, a system and method for holographic imaging with discernible image of an object to Marron.
